| Company/Department | RSA, The Security Division of EMC |
| Location | Hertzelia Pituah |
| Reports to | Director |
| Type of position | <input checked="" type="checkbox"/> Full-time <input type="checkbox"/> Part-time <input type="checkbox"/> Contractor <input type="checkbox"/> Intern / Student |

JOB DESCRIPTION

The product manager will be responsible for solutions delivered by RSA Online Threats group (FraudAction product line). He/she will work closely with customers, marketing, operations, R&D and other parts of the company to collect customer needs, market inputs, and other product requirements. He/she will then consolidate these requirements into a product roadmap while prioritizing the various requirements and balancing them with resources and customer deployment needs. The product manager will then follow up with a detailed product requirements document (PRD) to be implemented by the R&D department.

WORK EXPERIENCE REQUIREMENTS

A successful product manager will possess the following capabilities:

- Independent, results driven, creative problem solver, strong service orientation.
- A strong understanding of market dynamics and drivers
- Strong understanding of the business aspects related to the product line
- At least 2 years product management experience in a software company. Preferably in an internet application environment.
- Ability to work in a demanding, fast-paced and rapidly evolving environment
- Strong inter-personal skills

- Excellent English – both verbal and writing
- Effective presentation skills

EDUCATION REQUIREMENTS

- B.SC in Computer Science or equivalent
